LIBRA™ - Admin Station

The RFID Admin Station is a web-enabled module which controls and monitors the status of other LIBRA's stations real-time. It displays the status of RFID Check In/Out Station, Anti-Theft Gate, Sorting Station, Circulation and Grouping Station and the Member Self Register Kiosk.

On top of providing online status display of the Stations, the RFID Admin Station also provides Reports, Error log, Alarm log, Maintenance log for auditing purposes. The Report, supports PDF, excel and text format, which can be generated by authorize users.

The RFID Admin Station provides better remote control, monitoring and ease of troubleshooting on all the connected LIBRA™ stations, making managing of LIBRA™ within the clicks of mouse.

Features

- ✓ Remote Access via web browser
- ✓ Display and updating the status of all LIBRA™ Stations
- ✓ Remote boot up and shutdown of LIBRA™ Stations
- ✓ Generate Reports (PDF, excel and text)
- ✓ Record and backup transaction log, error log, alarm log and maintenance log
- ✓ Alert system administrator via display and email on error, alarm and maintenance occurred at LIBRA™ modules (Option)
